Color symbols
Note! This colour chart displays (in colour print and electronic version) the importance of the different colours used in the images of the method steps.

1 . Used for focused component, the component with which you will do something.

2 . Used as extra colors when you need to show or differentiate additional parts.

3 . Used for attachments that are to be removed/installed. May be screws, clips, connectors, etc.

4 . Used when the component is not fully removed from the vehicle but only hung to the side.

5 . Used for standard tools and special tools.
6 . Used as background color for vehicle components.

Removal

Note! The graphic shows the back of the component before removal.
Use: Interior trim remover

Remove the part carefully
Remove the marked part.

Removal of tape residue

Remove any tape or tape residue.

Installation

Note! Make sure that a new component is installed.

Install the marked component.
