Bulletin Update: Updated in this bulletin: stamping number 31400032 spare part number 31439299, size 8x18, name Skadi.

This list is provided as a cross reference for most wheels offered by Volvo. Since the names and designs of the wheels are sometimes difficult to describe, we recommend obtaining the stamping number off the wheel before trying to order.

Generally this stamping number will be a seven-digit number, found behind the center cap, or on the inside rear of the wheel. Before ordering wheels, it is a good idea to ask for the stamping number.

If you find a wheel where the stamping number is not listed below, we can quickly update the list.
