Fuel Injector Replacement, Reset Adaption Values and Fuel System Bleed Procedure

Model(s)	Year	Eng. Code	Trans. Code	VIN Range From	VIN Range To
Atlas	2018	3.6L (CDVC)	All	All	All

Technical Background

After fuel injector replacement, the fuel injector adaptation values must be erased and the fuel system must be bled to avoid damage to the catalytic converter.

Service

Please reference: Repair Group 24 Multiport Fuel Injection, Fuel Injectors, Removing and Installing in Elsa.

Note:

If the fuel injectors were replaced, erase the adaptation values and re-adapt the engine control module. See Vehicle Diagnostic Tester "Guided Fault Finding" function.

WARNING:

Fuel lines are under pressure. Fuel poses a risk of danger of injury to eyes and skin.

Wear protective eyewear and protective clothing in order to avoid injury and contact with the skin. Place a cloth on the connection location before loosening hose connections. Open the connection carefully and release the pressure.
