### **DESCRIPTION:**

Volvo Car USA LLC and Volvo Car Canada Limited (Volvo) on behalf of Volvo Car Corporation, has decided to launch Service Campaign S29650 for model year 2012 S60 vehicles with engine code 62.

Volvo has identified that upgrading the oil specification to ACEA A5/B5 Full Synthetic will help reduce carbon build up in the engine, and better align with the oil specification used in newer Volvo's.

# **RETAILER MUST CONFIRM VEHICLE ELIGIBILITY PRIOR TO BEGINNING THE REPAIR FOR THIS ACTION.**

Vehicles in retailer inventory must be upgraded prior to sale.

<u>PLEASE NOTE</u>: Service Campaign S29650 will be in effect until <u>December 31, 2018</u> regardless of mileage.

Vehicles affected by Service campaign S29650 will continue to have 7,500 mile or 12 months service interval.

Vehicles affected by Service Campaign S29650 with Factory Scheduled Maintenance (FSM) or any other Volvo Maintenance Contract will be reimbursed for full synthetic oil under warranty

### **SERVICE:**

The corrective action is to install an engine oil specification decal in the engine compartment and update the Owner's and Warranty Manuals.

Please also communicate the updated engine oil specification change to the vehicle owner.

Fit the label in the engine compartment according to the attached instruction.

Print attached file: "S60 MY2012 US - Owner's Manual, page 303" and update owner's manual.

Print attached file "S60 MY2012 US - Owner's Manual, page 339 and 340" and update owner's manual.

Print attached file "S60 MY2012 US - Warranty Manual, page 12" and update warranty manual.

# **VEHICLE REPORT:**

#### 

Installation

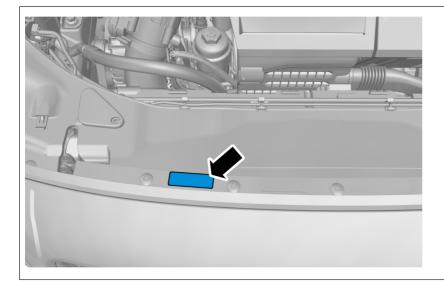

Note! This colour chart displays (in colour print and electronic version) the importance of the different colours used in the images of the method steps.

- 1. Used for focused component, the component with which you will do something.
- 2. Used as extra colors when you need to show or differentiate additional parts.
- 3 . Used for attachments that are to be removed/installed. May be screws, clips, connectors, etc.
- 4 . Used when the component is not fully removed from the vehicle but only hung to the side.
- 5. Used for standard tools and special tools.
- 6 . Used as background color for vehicle components.

# QB Instruction VCC-489268-1

# Caution! Make sure that the surface is clean and free of foreign material.

Fit the decal.

Use: Isopropanol , 31375638

### Engine oil

- Add oil if necessary. If the level is close to the MIN mark, add approximately 0.5 US quarts (0.5 liters) of oil.
- 4. Recheck the level and add more oil if necessary until the level is near the **MAX** mark.

### MARNING

Do not allow oil to spill onto or come into contact with hot exhaust pipe surfaces.

09

### **Specifications**

Specification/Model	Т5
Torque (Nm/rps)	360/30-67
Torque (ft. lbs./rpm)	266/1800-4000
No. of cylinders	5
Bore (in/mm)	3.27/83
Stroke (in/mm)	3.67/93.2
Displacement	2.52 liters / (153.8 cu. in.)
Compression ratio	9.0:1

### **Oil specifications**

Full synthetic engine oil meeting the minimum ACEA A5/B5 must be used. Lower quality oils may not offer the same fuel economy, engine performance, or engine protection.

Volvo recommends:

Refer to the warranty and Service Records information booklet for information on oilchange intervals and oil type requirements.

# **i** NOTE

This vehicle comes from the factory with synthetic oil.

### Oil additives must not be used.

### **Oil viscosity**

3050450

Incorrect viscosity oil can shorten engine life under normal use. SAE 5W-30 will provide

Viscosity chart

Extreme engine operation

SAE 0W-30 oil meeting ACEA A5/B5 requirements is recommended for extreme driving conditions.

### Oil volume

Engine model	Volume (incl. filter)	
Т5 (5 суl.)	B5254T5	6.02 US qts (5.7 liters)

01

### Engine oil

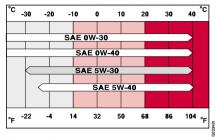

### **Oil specifications**

Only full synthetic oil meeting ACEA A5/B5 requirements should be used. Lower quality oils may not offer the same engine performance or engine protection.

Volvo recommends Castrol.

### Oil additives must not be used. Oil viscosity

Incorrect viscosity oil can shorten engine life under normal use. SAE 5W-30 will provide good fuel economy and engine protection. See the viscosity chart.

Viscosity chart

Extreme engine operation

Synthetic oils meeting SAE 0W-30 or 0W-40 and complying with oil quality requirements are recommended for driving in areas of sustained temperature extremes (hot or cold), when towing a trailer over long distances, and for prolonged driving in mountainous areas.

### IMPORTANT

Only full synthetic oil meeting ACEA A5/B5 requirements should be used. Lower quality oils may not offer the same engine performance or engine protection. American Petroleum Institute (API) symbol

The API Service Symbol "donut" is divided into three parts:

- The upper section describes the oil's performance level.
- The center identifies the oil's viscosity.
- The lower section indicates whether the oil has demonstrated energy-conserving properties in a standard test in comparison to a reference oil.
