  - [Scope 1 to 3: Retrofitting magnesium wheels on the vehicle](#) on page 3

## Update 12/14/18:

Please note: The WJ23 Technical Bulletin has been updated to reflect an increased allowable amount to claim for the four tires. The new allowed maximum cost for the four tires is **\$2,030.00**. The updated Technical Bulletin will be published into PIWIS, and can be found on this page below.

## Update 12/11/18:

Magnesium wheels and required parts for WJ23 Campaign are now available, and repairs can be performed. The WJ23 Campaign Technical Bulletin has been published in PIWIS, and can be found below for your convenience.

- **Please note: Parts for this campaign will NOT be automatically allocated. All parts must be ordered via PTEC/PAV.**
- The previously fitted set of wheels, consisting of aluminum wheels and tires, must be given to the customer free of charge. This can be used as a second set of wheels.
- If the customer does not accept the aluminum wheels, they must not be used on any other vehicles. The aluminum set of wheels must then be scrapped and disposed of correctly.
- The tires for the campaign must be sourced locally. Please review WJ23 Technical Bulletin for Porsche AG approved tires for this campaign.

# WJ23 Campaign - Retrofitting of Magnesium Wheels

## Overview

## WJ23 Campaign - Retrofitting of Magnesium Wheels (MY 2018 911 GT2 RS)

Unfortunately, a much higher than expected demand for the equipment option "Weissach package" (I-no. P70 or 808) has resulted in supply bottlenecks for our supplier for magnesium wheels in certain colors (Platinum silky gloss OB5, Black silky gloss JE1, Brilliant silver 8Z8, Silver 346).

As a result, the 911 GT2 RS can currently only be delivered with aluminum wheels of the same size.

This supply bottleneck does not affect magnesium wheels in white gold metallic.

The aluminum wheels removed during retrofitting will be given to the customer free of charge. Please inform customers about this during vehicle handover.

<b>Model type</b>	<b>911 GT2 RS (991)</b>
<b>Model year</b>	<b>2018</b>
<b>Vehicle specifications</b>	Weissach package (I-no. P70 or I-no. 808)

Please note that vehicles will continue to be fitted with aluminium wheels during standard production until such a time as the correct magnesium wheels become available. As a result, newly produced vehicles will be allocated to this campaign on a regular basis.

To download a list of your affected customers for this campaign, please follow the instructions found at <https://ppn.porsche.com/portal/docs/DOC-182765>.

## Porsche Mobility

If requested, the mobility of the affected customer can be guaranteed by offering a suitable replacement vehicle.

Please invoice this additional service with the campaign scope via WWS.

## Parts required

**Please note: Parts for this campaign will NOT be automatically allocated. All parts must be ordered via PTEC/PAV.**

The previously fitted set of wheels, consisting of aluminum wheels and tires, **must be given to the customer free of charge**. This can be used as a second set of wheels.

If the customer does not accept the aluminum set of wheels, **they must not be used on any other vehicle**. The aluminum set of wheels must then be scrapped and disposed of correctly.

**The tires for the campaign must be sourced locally. Please review WJ23 Technical Bulletin for Porsche AG approved tires for this campaign.**

## Warranty processing

Please enter the campaign that was carried out in the Warranty and Maintenance booklet for the vehicle.

## Scope 1 to 3: Retrofitting magnesium wheels on the vehicle

Damage code	WJ23 66 000
Repair code	2
Working time	212 TU
