FleetShield TuffCoat

Update

Production for the TuffCoat Option front bumper is being **transferred** from TBB High Point to FCCC. As a result, option **D513000000 FLEETSHIELD TUFFCOAT-FRONT BUMPER** is being **discontinued** and replaced by three new options **available** for order using FL 3x3 codes on the C2 chassis. The new sales codes are listed below.

Fleetshield TuffCoat provides:

- Durability, high performance coating on both sides of the bumper
- Guards against corrosion, abrasion, impact, and weather
- Resistant to chemicals, including road de-icing treatments

Note:

- All TuffCoat bumpers will be black in color
- N/A with reflective markings, handicap symbols, or lettering applied to the front bumper.

Below is a summary of changes that will take effect in RACE.
