Removal

Note! Removal steps in this procedure may contain installation details.

Color symbols

Note! This colour chart displays (in colour print and electronic version) the importance of the different colours used in the images of the method steps.

- 1 . Used for focused component, the component with which you will do something.
- 2 . Used as extra colors when you need to show or differentiate additional parts.
- 3 . Used for attachments that are to be removed/installed. May be screws, clips, connectors, etc.
- 4 . Used when the component is not fully removed from the vehicle but only hung to the side.
- 5 . Used for standard tools and special tools.
- 6 . Used as background color for vehicle components.

Remove left-hand engine support insulator , refer to:

- Removal, replacement and installation
- 2 - Engine with mountings and equipment
- 21 - Engine
- 218 - engine mounting

Installation

To install, reverse the removal procedure.
