RE: 2019 Civic Si Tire to Monroney Label Mismatch Product Update

Today American Honda is notifying all dealers of a product update on certain 2019 Civic Si vehicles for incorrect tire information listed on the Monroney label. Do an iN VIN status inquiry to determine which units **in your inventory are affected.**

PROBLEM

For the 2019 model year, a specification change was made to the Civic Si trim level, resulting in a change to the application of only all-season tires for this trim. As a result, the factory produced certain vehicles with summer tires instead of all-season tires. This created a discrepancy on the Monroney label, which now incorrectly displays (all-season) tire specification and performance information.

REPAIR

Two repairs are available:

- **In Stock Units:** Dealers have the option of keeping the original equipment (summer) tires as factory installed and requesting a corrected Monroney label, or replacing the tires and doorjamb tire label spec to all-season.
- **Sold Units:** For customers that request, dealers should either replace the tires and doorjamb tire label or note on the Repair Order that the customer decided to keep the tires currently installed on the vehicle.

PARTS

Dealership Sales departments have been notified about this activity, and American Honda Auto Sales will provide the correct specification Monroney label for units in which dealers prefer to keep the current summer tires. Check with your dealer's Sales department on units in inventory that will receive a new Monroney label. For units requiring tire replacement, order tires through normal parts ordering channels.

TOOLS

There are no special tools required for this repair.

SERVICE BULLETIN

Refer to service bulletin 19-007, *Product Update: 2019 Civic Si Tire to Monroney Label Mismatch*, which has been posted to the Service Information System (SIS). It includes materials, parts, repair, and warranty information related to this recall.

CUSTOMER NOTIFICATION

American Honda expects to complete initial customer notification by the middle of February 2019.

As always, be sure to do an iN VIN status inquiry for all vehicles passing through your dealership to determine eligibility for any open campaigns.
