

PRODUCT BULLETIN

Bulletin #: FP-19_02-Ford/Omicraft
Customer: All Ford Customers
Date: January 30, 2019
Subject: Cartridge Filter – New Design For QFL10

Please be advised that a design change is being implemented on the following cartridge filter:

Brand	Sub-brand	Part Number	Primary Applications
Ford	Ford Omnicraft	QFL10	Various GM, Saturn (09-19)

The current design includes an actuator on the top end cap. A complete redesign of the end cap has eliminated the need for the actuator, and aligns with the OE styling. The catalog information remains exactly the same. This is a running change - please use FIFO inventory rotation practices to sell through older inventories first.

Please note: the old style filter must be installed in-tact with the actuator in place to fit and function properly. Physical removal of the actuator from older style cartridges will damage the filter and will void all warranties.

We greatly appreciate your business and thank you for your partnership.

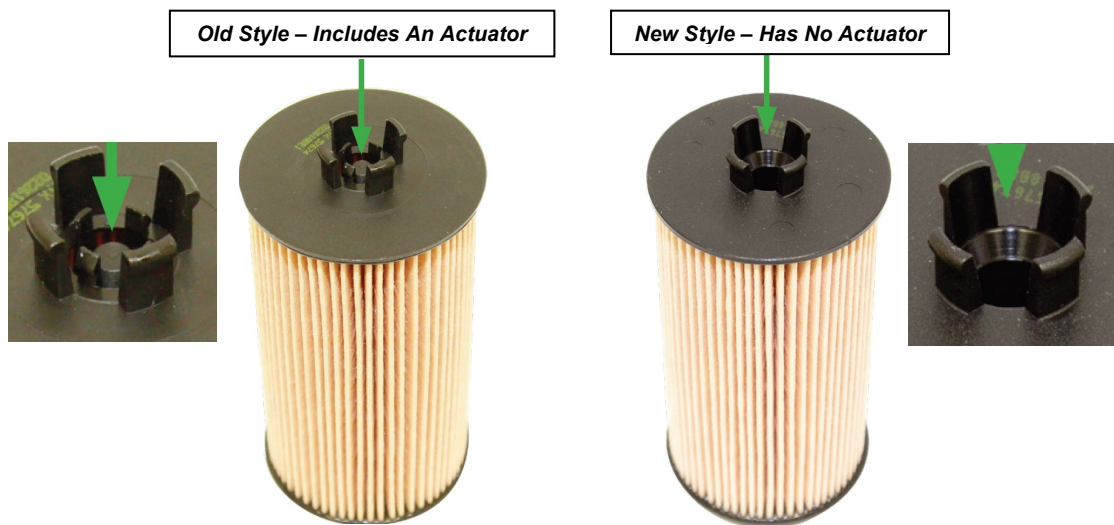

PRODUCT BULLETIN

Bulletin #: FP-19_02-Purolator
Customer: All Purolator Customers
Date: January 30, 2019
Subject: Cartridge Filter – New Design For L15839 & TL15839
