

Brown Dust on Wheels?

AFFECTED VEHICLES

Year	Model	Trim
2018-19	RLX	ALL
2018-19	RLX Sport Hybrid	ALL

EDITOR'S NOTE: This article replaces "Don't Worry About the Brown Dust on the Wheels," posted in **December 2017**.

On some arriving vehicles, are you seeing brown dust covering the wheels? Don't worry; it's completely normal.

What you're seeing is just a buildup of rust on the brake discs from salt air during overseas transit. To remove that rust, just hose it off with water.
