Topic	01-19-02TT - Missing Test Plan for Resetting Adaptation Values after Replacement of the NOx Converter	
Market area	United States 444 Volkswagen of America, Inc. (6444)	
Brand	Volkswagen	
Date	February 8, 2019	

### **Condition:**

#### ATTENTION:

THIS IS A TECH TIP, NOT A TECHNICAL BULLETIN.

TECH TIPS ARE NOT ASSOCIATED WITH WARRANTY CLAIMING.

#### Missing Test Plan for Resetting Adaptation Values after Replacement of the NOx Converter

Model(s)	Year	Eng. Code	Trans. Code	VIN Range From	VIN Range To
Jetta	2009	2.0L TDI (CBEA)	All	All	All

# **Technical Background**

After replacement of the NOx reduction catalytic converter on a 2009 Jetta with a CBEA TDI engine, reset of the NOx reduction catalytic converter adaptation values in the Engine Control Module -*J623*- is unable to be performed.

You may not find a test plan while using ODIS Service to reset the NOx reduction catalytic converter adaptation value in guided functions.

## **Service**

If this is the case:

 Manually build the vehicle as a 2010 Jetta with a CJAA TDI engine and the test plan will be found under guided functions.
