Title: Engine Emission Label Replacement, Certificate of Conformance and Clean Idle Sticker Addition Procedure

Applies To: All Navistar Powered Trucks Requesting Engine Emission Label Replacement, Certificate of Conformance and/or Clean Idle Sticker.

CHANGE LOG

Please refer to the change log text box below for recent changes to this article:

03/28/2019 - Updated Support Number Prompts
 12/6/2018 - Add information for International CV
 06/05/2018 - Add Change Log. Add information regarding Cummins Engines.

DESCRIPTION

If you need to replace the Emissions Label, Certificate of Conformance and/or add the Clean Idle Sticker because of damage, loss, or an emissions change for Navistar engines. Cummins engines must be supplied by your local Cummins distributor.

PROCEDURE

Effective immediately, all engine Emission Label replacements, Certificate of Conformance and/or Clean Idle Sticker additions will be provided by the Vehicle Programming Group with assistance from the Product Regulatory Affairs Group, via the iKNOW system. The cost per replacement is \$100.00 (US Dollars) each.

INTERNATIONAL ENGINES

To obtain an engine Emission Label, Certificate of Conformance and/or Clean Idle Sticker, please submit the request through the iKNOW system by creating a case file for **EACH VIN**. **Please be sure to submit this case file to the Vehicle Programming group.** Please provide information such as engine build year, horsepower rating, engine model. and engine serial number for older engines. Requests for International engines in Ford vehicles will need to be submitted by an International Dealer.

INTERNATIONAL CV

For International CV/International 6.6 engine, the Engine Label is ordered via the TSC replacement label process. See [G-6355](#) or [PL1600001](#) for additional information.

To obtain a Clean Idle Sticker, please submit the request through the iKNOW system by creating a case file for **EACH VIN**. **Please be sure to submit this case file to the Vehicle Programming group.**

[Case File Creation Process](#)

Note: If you already have a case file open for a request such as a Horsepower change, CARB Change, etc. then you do not need to open an additional case file for this request as the request will be handled in that case file.

The Emission Label and Certificate of Conformance processing time can take up to 5 days (not including weekends).

All processed and completed engine Emission Labels, Certificate of Conformance and/or Clean Idle Stickers will be shipped to the dealer via UPS.

Once (You) the dealer receives the engine Emission Label, Certificate of Conformance and/or Clean Idle Sticker and the appropriate work has been completed i.e. Recalibration, Horsepower change, CARB change, etc. the case file must then be closed to ensure the proper billing cycle.

If you have questions, please ask in the case file or contact **Vehicle Programming Tech Service** @ 1-800-336-4500  Option 4-1.
