Condition	Some customers may comment that the power folding mirror(s): <ul style="list-style-type: none">- Do not stop at the correct location- Do not move and make a grinding noise- Fold completely forward.
Cause	This concern could be caused by an issue with the mirror head pivot stop/detent. This concern is more likely to occur if the mirrors are power folded in while going through a car wash.

Correction:

Engineering has released an updated mirror assembly with improvements to the mirror head pivot stop/detent. To correct this concern, replace the affected mirror assembly using current CCA stock.

This PI may be converted to a bulletin shortly.
