

No.: 19 TL-2
Feb. 25, 2019

TO: Service Locations

FROM: Service Systems Development

SUBJECT: **SF 558 Spring Wedge and Spacer Tool Kit DKICHA018002**

GENERAL INFORMATION

In order to repair trucks involved in Field Service Campaign SF 558, special tools will be needed. A kit (DKICHA018002) with two tools (DKICHA018002-1 and DKICHA018002-2) was created to help in the repair. Two kits will be sent out free of charge to every dealership to be able to repair the trucks involved in the Field Service Campaign.

REQUIRED ACTION

When repairing trucks involved in Field Service Campaign SF 558, use tool kit DKICHA018002 to properly support the front engine cross member while locating the spring bushing laterally. See Field Service Campaign SF 558 for instructions on how to use the tool to properly locate the bushing.
