| Check Engine Light with P0521-85 Set in the PCM | 17MY F-PACE AJ20D |
|--|--|
| <p><u>Customer Voice:</u></p> <ul style="list-style-type: none">- Check engine light appears on the instrument cluster- in some cases intermittently. <p><u>Technical Description:</u></p> <ul style="list-style-type: none">- P0521-85 is set in the PCM for Oil Pressure Sensor Range/Performance <p><u>Status:</u></p> <ul style="list-style-type: none">- Under Investigation- Follow TOPIx steps for diagnosis, looks for signs of oil leaks around the oil pump/ sensor. If none are found, perform circuit checks at the sensor and pump. Please submit a TA and follow LTS instructions on next steps. Include the current oil level in the vehicle and last service record in your submission, as well as a picture of the filter. Should you replace any parts for this concern, please hold onto the parts (pump, sensor & filter assembly) and submit an EPQR with your parts manager mailing information. |  <p>isometric view Scale: 1:1</p> The image shows a technical isometric drawing of an engine assembly, likely a 2.0-liter diesel engine. It includes various components such as the cylinder head, intake manifold, and oil pan. The drawing is labeled 'isometric view' and 'Scale: 1:1'. |
