Poor Quality From Voice Control

Customer Voice:

- Poor quality from Voice Control
- Poor quality from Voice Command

Technical Description:

- Ensure customer and retailer is utilizing the proper operating procedures stated in the TOPIx workshop manual 415-01 "Voice Control".

Status:

- If a customer or a retailer is still experiencing poor quality from the voice control please ensure these steps are followed:
 - Speech database is at the latest level.
 - Navigation maps are at the latest level.
 - Proper operating procedures are followed within the TOPIx workshop manual section 415-01 "Voice Control".
- If poor performance is still exhibited please create a EPQR.
