WATCH #544 , Rev. A
April, 2019
Page 1 of 2

SUBJECT: 3000 Series Torque Converter Housing Enhancements

MODELS AFFECTED: 3000 Series Product Family Transmissions

Introduction:

Allison Transmission, Inc. is pleased to announce a continuous product improvement of the 3000 Series Standard Torque Converter Housing as well as the 3000 Series SS-PTO Torque Converter Housings. The enhanced 3000 Series Torque Converter Housing will replace the current 3000 Series Torque Converter Housing on all 3000 Series Product Families.

This WATCH is organized as follows:

- Torque Converter Housing Hardware Enhancement
- Timing
- Additional Information

Torque Converter Housing Hardware Enhancement:

The new 3000 Series Torque Converter Housing possesses the same structural integrity as the current housing. The new Torque Converter Housing will include a new socket recess for easy and improved assembly access. The enhanced design will be implemented in all variants of the 3000 Series Product Family Torque Converters, including standard and PTO Torque Converter Housings. The current and future torque converter housings are interchangeable backward. There will be no impact on existing or new units.
