Frame Corrosion Resistant Compound (CRC) Application

- LSC H0F will expire May 21, 2019.
- No vehicles can be sprayed after this date. It's important to have all vehicles remaining to be sprayed completed on or before this date.
 - If your dealership is not able to spray the remaining vehicles before this expiration, consideration can be given into whether a customer should be referred to another, local Toyota dealership that can complete the CRC application on or before May 21, 2019.
- Ensure your dealership only orders CRC spray for vehicles that are scheduled to be sprayed. Any additional CRC spray kits cannot be returned after campaign expiration.

Refer to the Dealer Letter on TIS for additional information.
