

## VMI TECHNICAL SERVICE BULLETIN (HONDA PILOT RESTRAINT KIT, P/N CA9278-14)

### Replacement Restraint Kit for VMI Honda Pilot

VMI was recently made aware that the restraint kit sent out in the VMI converted Honda Pilot (kit P/N CA9278-14) does not install or latch. During our investigation, we found that the buckles that did not install or latch are marked by the word "CENTER" stamped on the plastic case.

If upon inspection you or your customer find that the customer's vehicle is equipped with this buckle, please call VMI Tech Support at 800-488-9082. Please have the VIN handy, and we will ship a replacement buckle assembly without charge.
