Range Rover Velar Selecting Ride Height

18MY – 19MY RR Velar

Customer Voice:

- ICDM Touch screen soft buttons not able to select air suspension height.

Technical Description:

- Recent IMC software release (19A) is disabling the ability to select air suspension height.

Status:

- IMC software (19A2) can be loaded into affected vehicles via SOTA.
- Non-SOTA enabled vehicles can be loaded with PF229.
