

Service Alert

Mazda North American Operations
Irvine, CA 92618-2922

Subject: 2019 MAZDA3 SERVICE CAUTIONS FOR NEW AND REVISED FEATURES	Service Alert No.: SA-010/19
	Last Issued: 05/02/2019

BULLETIN NOTES

This Service Alert supersedes the previously issued Service Alert(s) listed below: The changes are noted in Red.

Previous Service Alert(s):	Date(s) Issued:
SA-010/19	04/25/19, 04/11/19, 03/29/19, 03/21/19, 03/15/19, 03/08/19, 03/06/19, 03/05/19, 02/25/19

APPLICABLE MODEL(S)/VINS

2019 Mazda3

DESCRIPTION

The new 2019 Mazda3 has new and revised features that are different from previous models, and may be difficult to understand. This Service Alert provides valuable information to support potential dealer and customer concerns.

Item	Service Information
------	---------------------

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. Mazda North American Operations reserves the right to alter the specifications and contents of this bulletin without obligation or advance notice. All rights reserved. No part of this bulletin may be reproduced in any form or by any means, electronic or mechanical---including photocopying and recording and the use of any kind of information storage and retrieval system ---without permission in writing.

Fuse to be Installed at PDI (JM1 = Japan built)

1. There is only one fuse removed at the factory that should be installed at PDI. It is fuse F27 (25A). The fuse is stored in the lid of the fuse box with the spare fuses.
2. The current PDI form is wrong. It states there are two (2) fuses removed (F46 and F50) that should be installed. The form is being updated with this change.

Fuse Block
(Engine Compartment)

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. No part of this bulletin may be reproduced in any form or by any means, electronic or mechanical---including photocopying and recording and the use of any kind of information storage and retrieval system ---without permission in writing.

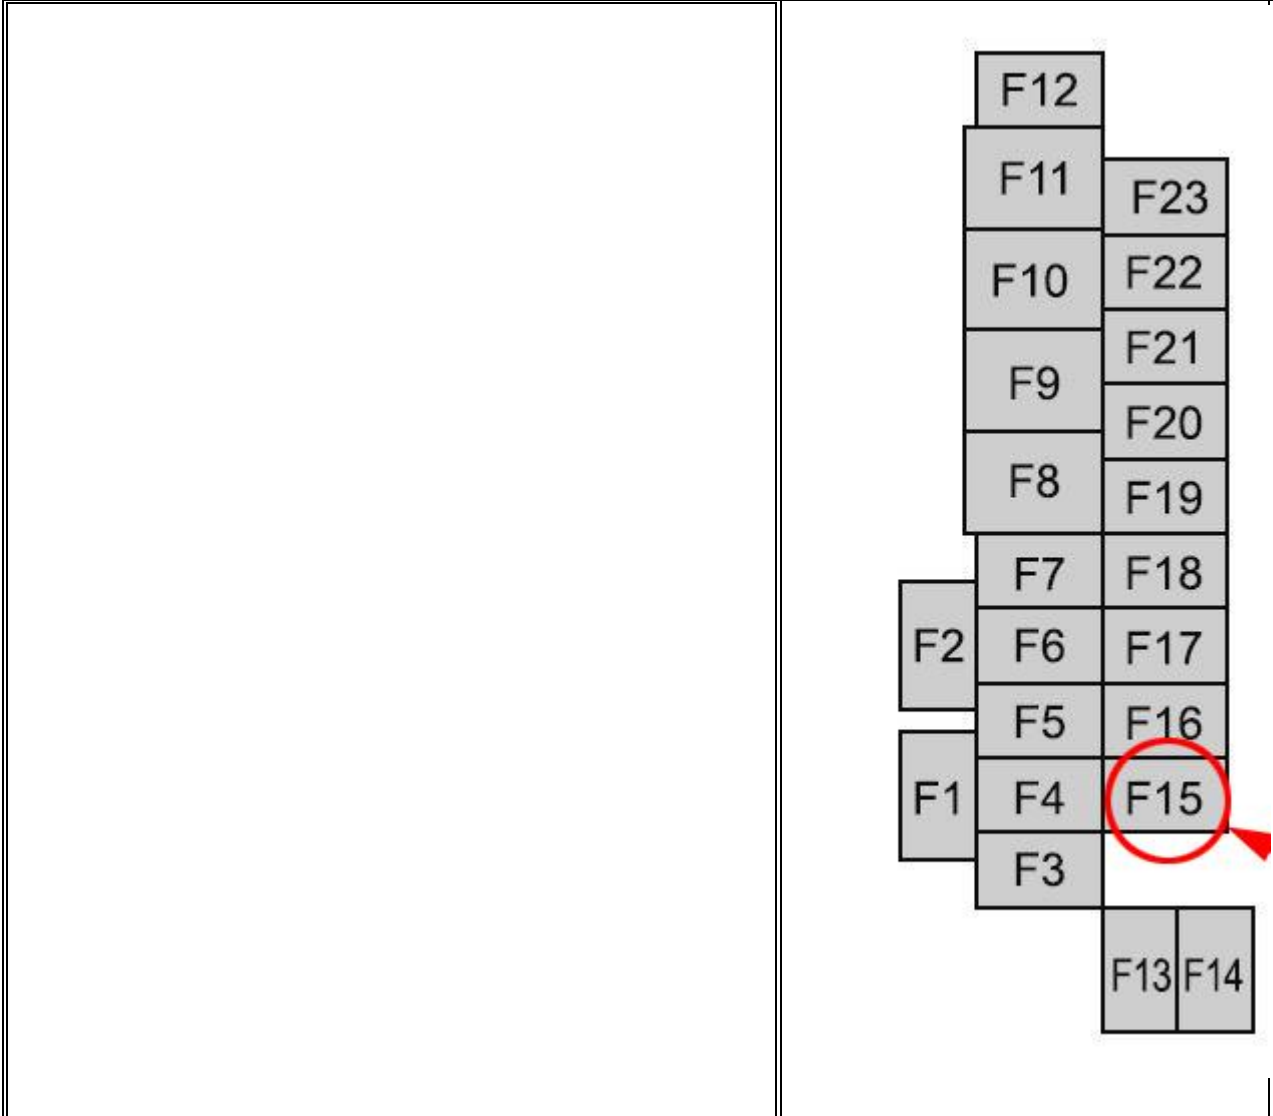

Fuse to be Installed at PDI (3MZ = Mexico built)

1. There are two fuses removed at the factory that should be installed at PDI. They are fuse F27 (25A) and F15 (15A).
2. **NOTE: On some vehicles, fuse F13 (15A) is being removed instead of F15 at the factory. This causes the Commander switch to be inoperative.**
3. The F27 (25A) fuse is stored in the lid of the fuse box with the spare fuses.
4. The F15 (15A) fuse is stored in the lower panel compartment on the left side of the steering wheel.
5. Go to SA-017/19 for details.

Fuse Block
(Left Side)

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. Front Wiper Service Caution

1. Wiper arm park position is located under the hood.
2. When servicing front wipers, front wiper service mode is required or damage to wiper arms may occur (see Service Information).
3. If wiper arms are replaced, M-MDS is needed for wiper arm adjustment (see Service Information)
4. DO NOT use wiper arms as markers when in dealer inventory.

See Owner's Manual -> Maintenance and Care > Replacing Windshield Wiper Blades

In-Vehicle Digital Owner's Manual

The in-vehicle digital OM can be displayed on the center display while the vehicle is stopped. Customer can search descriptions and watch videos of vehicle features and functions by operating the commander switch.

**NOTE:**

1. The digital owner's manual must be installed during PDI. Due to printing deadlines and later updates to the digital manual, the content of the digital manual may differ from the printed manual.
2. USB memory flash drive FAT16 or FAT32 format is required for installation.
3. The vehicle's infotainment system will only accept file names [contents.tar] and [contents.sig]. File names with additional suffixes will not be accepted.
4. The infotainment system may inadvertently be powered OFF if the diagnostic assist function buttons are not pressed correctly. Simply press and hold the volume knob to power back ON.

Power Door Locks

Doors Lock With Keys In The Vehicle When Liftgate Lock Switch Is Pressed

DO NOT leave keys in the vehicle. The doors will lock with keys in the vehicle when liftgate lock switch is pressed and liftgate is closed, but the liftgate will not lock in the above condition.

NOTE: This is currently under investigation.

Doors cannot be unlocked using the outside door handle touch sensor

The door handle touch sensor system may not operate normally under the following conditions:

1. Front passenger (without key) grabs and holds the outside door handle before the driver (with key) touches the drivers outside door handle unlock touch sensor.
2. You touch the sensing area of the door lock touch sensor and the sensing area of the door release touch sensor at the same time.

See Owner's Manual ->
Before Driving -> Doors and Locks

Transmitter Battery Saving Function (Key Fob)

The new 2019 Mazda3 has a "power saving" function built into the keyless entry system where some key fob functions are disabled. This feature could accidentally be enabled and some concerns with the vehicle may be:

1. Engine does not start.
2. Engine does not start unless you hold the fob to the start/stop button.
3. Doors do not unlock using the door handle, but unlock with the remote.
4. Doors do not lock using the door handle, but lock with the remote.
5. Transmitter indicator light does not turn on/flash.

Turning on the power saving function
After you have turned on the power saving function according to the following procedure, the hazard warning lights and sound operate* one time.

1. Press the lock button on the transmitter 4 times within 3 seconds to turn on the operation indicator light.
2. Press the lock button continuously for 1.5 seconds or longer while the operation indicator light turns on (for 5 seconds).
3. Press any of the buttons on the transmitter to make sure that the operation indicator light does not turn on/flash.

Turning off the power saving function
After you have turned off the power saving function according to the following procedure, the hazard warning lights and sound operate* one time.

1. Press any of the buttons on the transmitter to make sure that the operation indicator light does not turn on/flash.
2. Press the lock button on the transmitter 4 times within 3 seconds to turn on the operation indicator light.
3. Press the lock button continuously for 1.5 seconds or longer while the operation indicator light turns on (for 5 seconds).

*: with the advanced keyless function

Seat Warmer and Heated Steering Wheel Auto Mode
 The driver and front passenger's seater warmers* and the heated steering wheel* can be set to be automatically controlled (turned on and off) by the climate control system, depending on the set temperature.

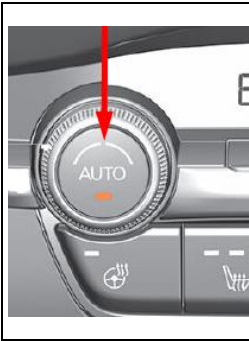

Auto Mode

1. Go to MAZDA CONNECT home screen and select "Settings"
2. Select "Vehicle Settings".
3. Enable "Link Seat Climate Control Temperatures".
4. Press the climate control AUTO switch.

Link Seat Climate Control Temperatures Setting

Climate Control Auto Switch

* if equipped

See Owner's Manual ->
 Essential Safety Equipment -> Seat Warmer/Heated Steering Wheel -> Seat Warmer / Heated Steering Wheel

Electric Parking Brake (EPB)

Parking Brake Auto Operation

When the ignition is switched OFF, the parking brake will be applied automatically. The EPB indicator light in the instrument cluster and the EPB switch indicator light turn ON.

1. Indicator light

Canceling the Parking Brake Auto Operation

Parking brake auto operation can be canceled using the procedure in the Owner's Manual.

NOTE: When the ignition is cycled back ON, the parking brake auto operation is restored.

Parking Brake Automatic Release

If the accelerator pedal is depressed with the parking brake applied and all of the following conditions are met, the parking brake is automatically release. When the parking brake is released, the EPB indicator light in the instrument cluster and the EPB switch indicator light turn off.

See Owner's Manual -> When Driving -> Brake -> EPB Auto operation

A/C Air Temperature Is Not Cold

When diagnosing A/C performance complaints, use a thermometer as shown below and only compare A/C performance to another vehicle that is the same model/year/HVAC type*.

*HVAC Types:

1. FULL-AUTO AIR CONDITIONER
2. MANUAL AIR CONDITIONER

MGSS: REFRIGERANT SYSTEM PERFORMANCE TEST [(US)]

Tire Pressure Monitoring System (TPMS) Change

The TPMS system uses a new rubber type direct TPMS.

NOTE: The new rubber type is not reusable. If the TPMS sensor is removed from the wheel, it must be replaced.

New Rubber Type Old Metal Type

MGSS: TIRE PRESSURE MONITORING SYSTEM (TPMS)
