

COMAND Online (code 531): Wrong date in system settings, incorrect time in instrument cluster

Topic number	LI82.85-P-069725
Version	1
Function group	82.85 Navigation and Communication system (CNS, ICS, COMAND, FleetBoard)
Date	04-23-2019
Validity	Model 253 with code 531 (COMAND Online) and 809.
Reason for change	
Reason for block	

Complaint:

One or more of the following problems may occur:

- The system settings of the COMAND Online control unit (A26/17) display an incorrect date.

Cause:

The wrong date may be stored in the COMAND Online control unit (A26/17).

Remedy:

Run Epoch Offset in the Dealer menu.

- To do so, press the Vehicle button and slide the controller downwards to System settings.
- Push controller to left and hold there for approx. 8 seconds.
- The "Dealer Menu" selection is then shown.
- Then select the following menu items: # Car # Time # Epoch Offset #2019-2038.
- Exit the Dealer menu again using the "Back" button.
- To finish, "reset" the COMAND Online control unit # System settings.

Check the date in the COMAND Online (A26/17) menu settings and adjust the time if necessary (Summer/standard time, Automatic...).

Check for correct function again following a bus idle period.

Symptoms
Communication/information / Information display / Displays / Clock / Malfunction
Communication/information / Information display / Displays / Clock / Synchronization with navigation system nonfunctional

XENTRY TIPS

Control unit/fault code		
Control unit	Fault code	Fault text
