May 2019

This notice applies to your vehicle, VIN: ~~X1GB6G5CG9D1133887~~

Dear Forest River Inc.:

This notice is sent to inform you that General Motors is conducting a voluntary emission recall that includes your vehicle.

**Reason For This Recall:** Your 2013-2015 model year Chevrolet Express or GMC Savana vehicle may be equipped with an improperly functioning on-board emission-related diagnostic system that violates California and Federal standards and regulations. The Engine Control Module (ECM) in these vehicles does not adequately diagnose and account for certain types of oxygen sensor degradation or aging that might occur during the vehicle's life. This condition could result in elevated tailpipe emissions, with no illumination of the Malfunction Indicator Lamp (MIL) to let the driver know there is a problem. Your vehicle has been certified to meet California and Federal emission standards and your vehicle may be releasing air pollutants which exceed those standards.

**What Will Be Done:** Your Chevrolet dealer will reprogram the ECM with a modified diagnostic calibration. This service will be performed for you at **no charge**. Eligibility for the ECM reprogramming will not be denied solely due to your vehicle having non-GM parts or repairs performed by outlets other than GM franchised dealers.

**How Long Will The Repair Take?** Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 23 minutes.

**What You Should Do:** Please contact your Chevrolet dealer as soon as possible to arrange a service date. Instructions for making this correction have been sent to your dealer. Please ask your dealer if you wish to know how much time will be needed to schedule, process, and repair your vehicle.

If you have any questions or need any assistance, just contact your Chevrolet dealer or the Chevrolet Customer Assistance Center at 1.800.630.2438 (TTY 1.800.833.2438).

**Emission Law Information:** Your vehicle may be equipped with an improperly functioning on-board emission-related diagnostic system that violates California and federal standards and regulations. In order to assure your full protection under the emission warranty provisions, it is recommended that you have your vehicle serviced as soon as possible. Failure to do so could legally be determined as lack of proper maintenance of your vehicle. Also, your vehicle may fail a state or local emission inspection or I/M smog check test if this recall is not accomplished.

---

**IMPORTANT MESSAGE FOR CALIFORNIA RESIDENTS**

The California Air Resources Board (CARB) requires vehicle emission recalls be completed prior to California registration renewal. Uncorrected emission recalls will result in the inability to renew your California vehicle registration.

At the time of emission recall completion, your California dealer will issue a "Proof of Correction Certificate". Keep this certificate and, if required, present it to the Department of Motor Vehicles when renewing your California registration as proof of recall completion.

---

We are sorry to cause you this inconvenience; however, we have taken this action in the interest of your continued satisfaction with our products.
