Service Bulletin**

General Information

Only H11 bulbs with a 55W rating should be used on New Cascadia vehicles equipped with halogen headlamps. Installing higher-wattage bulbs may damage the headlamp housing or the wiring. It is recommended that only DTNA-supplied original equipment be used.

IMPORTANT: Improper installation can damage the headlamp housing. For headlamp bulb replacement instructions, refer to **Section 54.04, Subject 110** in the New Cascadia Workshop Manual.

Warranty

This is an informational bulletin. Warranty does not apply.
