KENWORTH
A PACCAR COMPANY

Technical Information Bulletin

98-007

Section

Tools - 98

Subject

PicoScope

Release Date

6/28/2019

Condition

PicoScope (Oscilloscope) – used for advanced electrical and electronics diagnostics.

Chassis Affected

All chassis.

Action

Information Only

The PicoScope is now available for purchase through PPD.

The Tool Requirement Level is currently Level 4. At some point in the future, the Tool Requirement Level may be raised.

Warranty

SRT times for the use of this tool are currently being developed. Use appropriate Operation Code XXX time when using this tool for warranty repairs.

Ensure test results are included in the claim story.

This bulletin will be updated as SRT guidance and times are further developed.

Parts

Parts are available from PACCAR Parts via DSP.
This PicoScope has been customized for PACCAR. The support software will be updated with unique files specific to PACCAR. These files may not be supported on other PicoScope versions.

Quantity	Part Number	Description
1	2203500PE	PicoScope

Background

A PACCAR supported PicoScope is an automotive oscilloscope that interfaces through a PC. The software that interfaces with the oscilloscope can be run on the same laptop that runs other diagnostic software. Consult the PicoScope documentation for hardware and software requirements.

Kenworth training courses are expected to be available in Q3 of 2019. Details will be announced on the Service Training site.

General PicoScope training and detailed documentation can be found here: https://www.picoauto.com/library

---

Procedure

Links to PACCAR designed templates designed specifically to diagnose PACCAR systems are available from the PicoScope tool page.

The template files are zip files that contain, at a minimum, the following three files:

- An instruction document for using the template file.
- The template file.
- A file containing a sample of the expected wave form.
- Additional supporting documentation may also be included.

When you encounter an issue that you think should have or requires a custom template file, you can submit a request by opening this form. Provide as much information as possible and accurate contact information. You may

need to be contacted by the team developing the template for additional information.
