

SSM 48055 - 2017-2018 F-150, 2018-2019 Expedition/Navigator - 3.5L EcoBoost - VCT Unit Replacement

Some 2017-2018 F-150 and 2018-2019 Expedition/Navigator vehicles equipped with a 3.5L EcoBoost engine, where the variable cam timing (VCT) unit or long block assembly requires replacement for any reason, the PCM calibration must also be updated during the repair using the latest version of the appropriate Ford scan tool. Claim the labor required to complete PCM programming using M time. Monitor Oasis for updates.

APPLICABLE VEHICLES
