

V08/V11 EPA AND CARB APPROVED EMISSIONS MODIFICATION AND EXTENDED WARRANTY

NOTE: VINS LIVE MAY 3rd, 2019; DEALER INSTRUCTIONS TO PUBLISH MAY 7th, 2019

The Approved Emissions Modification is intended to ensure that the vehicles' emissions are in compliance with the emissions standards to which they were originally certified.

APPROVED EMISSIONS MODIFICATION

Fiat Chrysler Automobiles (FCA) has reached an agreement with the U.S. Environmental Protection Agency (EPA) and the California Air Resources Board (CARB) to offer, free of charge, an "Approved Emissions Modification" for all model year 2014, 2015, and 2016 Ram 1500 and Jeep Grand Cherokee vehicles equipped with the 3.0L diesel engine (Subject Vehicles). This Approved Emissions Modification updates the emission control system software and is intended to ensure that the vehicles' emissions are in compliance with the emissions standards to which they were originally certified. This agreement is set forth in a consent decree that resolves allegations that these vehicles fail to comply with federal and California law. FCA has also agreed to provide an extended warranty for vehicles that receive the Approved Emissions Modification.

VEHICLE SCAN REPORT

Run a Vehicle Scan Report for all Subject Vehicles Before installing the Approved Emissions Modification or conducting any other service.

CLAIM REQUIREMENTS

For successful installation of the Approved Emissions Modification: Please take a clear, legible photo of the installed Recall label on the vehicle and download **two** Vehicle Scan Reports, one that displays the PCM and TCM calibration levels before completing the Recall, and another that displays the PCM and TCM calibrations levels after completing the Recall. For Warranty reimbursement, attach the photo and the two Vehicle Scan Reports to the claim and submit via RA to the Warranty Contact Center.

For modified vehicles: If a customer has modified their vehicle and refuses the Approved Emissions Modification due to the modification, provide the Vehicle Scan Report and, if possible, additional supporting documents (photos, name/type of modification/aftermarket part installed, details for refusal, etc.) if possible, and submit the information in accordance with the V08/V11 Dealer Instructions.

LABEL ORDERING

The labels and extended warranty information may be ordered using the Marketing Materials link within DealerCONNECT:

Ordering Additional labels and extended warranty information kits:

The labels and extended warranty information may be ordered using the Marketing Materials link within [DealerCONNECT](#). **Please note that this process is for replenishment only.**
