

CUSTOMER SATISFACTION NOTIFICATION U07

- AUTOPARK FUNCTIONALITY

VIN LIST UPDATE

Some RAM Trucks equipped with a 3.0L EcoDiesel were eligible for CSN U07 and Emissions Recall V08/V11/V16. It has been previously communicated that vehicles affected by both campaigns must have the U07 completed first. In an effort to simplify the processes surrounding the Emissions Recall V08/V11/V16 all Ram Trucks equipped with a 3.0L EcoDiesel engine are being removed from the U07 Campaign until further notice. Please continue to complete the V08/V11/V16 campaign as written in the dealer instructions.
