Subject: Ferrari Predictive Maintenance and New Manufacturer's Warranty Booklets

Please note that **Ferrari** is developing a new **Ferrari Predictive Maintenance program** for determining the wear rate and deterioration of certain components of the vehicle in relation to vehicle usage.

This **program** will be used by Authorized Ferrari Dealers to determine when certain maintenance procedures are necessary and their respective service intervals. This may also indicate where the aforementioned maintenance procedures must be performed earlier than scheduled or may be deferred until a later date, to:

- Help ensure that the regular maintenance performed is adequate with the effective usage of the vehicle and;
- Allow the Authorized Ferrari Dealer to plan its operations more effectively, by determining the date of the next scheduled maintenance procedure to be carried out on the vehicle.

The **Manufacturer's Warranty Booklets** have also been modified to reflect the changes introduced with this **Program**. This has been necessary as certain components of the vehicle covered by the standard 7 Year Maintenance plan may be subject to the replacement plan calculated by the program in relation to effective usage of the vehicle.

The **Program** may only be used by **Authorized Ferrari Dealers**.

Manufacturer's Warranty Booklets for new vehicles

Newly delivered vehicles will be accompanied by the new **Manufacturer's Warranty Booklets** with updated content as of February 2019.

Manufacturer's Warranty Booklets for vehicles already serviced by network

Upon roll-out of the program, owners of existing, registered vehicles may decide at their own discretion to participate in the new program by signing the **amendment to the Manufacturer's Warranty Booklet** for approval. This amendment, which is printed on an adhesive label, must then be affixed to the **Manufacturer's Warranty Booklet**.

Ferrari North America

Applying the amendment label updates the existing **Manufacturer's Warranty Booklet** to the current version and allows the vehicle to be included in the program. A copy of the label, signed by the customer, must be subsequently attached to the Service Entry. Please note that subscribing to the new **Program** is irreversible and available at no additional cost to the customer.

Applicability

In the case of existing vehicles that have already been registered, the following models are eligible for the program.

California	458 Speciale	FF	488 Spider	GTC4 Lusso T
California T	458 Speciale A	LaFerrari	488 Pista	Portofino
458 Italia	F12berlinetta	LaFerrari Aperta	812 Superfast	488 Pista Spider
458 Spider	F12 TDF	488 GTB	GTC4 Lusso	

Refer to Technical Information 2580 for more information on this program.

Thank you for your co-operation.
