Subject: Limited Service Campaign (LSC) GLD
Certain 2015 MY GS 350, LS 460, RC 350
Certain 2016 MY GX 460, IS 200t/300/350 and NX 200t Vehicles
Safety Connect System Disabled

Dear Dealer Principal:

In our continuing efforts to ensure the best in customer satisfaction, Lexus is launching a Limited Service Campaign (LSC) on certain 2015 MY GS 350, LS 460, RC 350, and certain 2016 MY GX 460, IS 200t/300/350 and NX 200t vehicles.

Background

The subject vehicles are equipped with Safety Connect, which allows drivers to contact the Lexus 24/7 response center at the touch of a button. Lexus has identified that the Safety Connect System in the subject vehicles has become disabled due to an unplanned expiration of the Mobile Identification Number/Mobile Directory Number.

Remedy

Any authorized Lexus dealer will re-initialize the Safety Connect System at **NO CHARGE** to the vehicle owner.

This LSC will be available *until April 30, 2019* and will only be available at an authorized Lexus Dealer.

Owner Notification Mailing Date

The owner notification will commence in mid-June, 2016, approximately one week after dealer notification.

Lexus makes significant effort to obtain current customer name and address information from each state through industry resources when mailing owner letters. In the event your dealership receives a notice for a vehicle that was sold prior to the LSC announcement, it is the dealership's responsibility to forward the owner letter to the customer who purchased the vehicle.

Please note that only owners of the covered vehicles will be notified. If your dealer is contacted by an owner who has not yet received a notification, please **verify eligibility by confirming through TIS prior to performing repairs**. Dealers should perform the repair as outlined in the Technical Instructions found on TIS.

Pre-owned Vehicles in Dealership Inventory (In-stock Vehicles) and LCCS Vehicles

To ensure customer satisfaction, Lexus requests that dealers conduct this LSC remedy on any used vehicles currently in dealer inventory or any dealer LCCS vehicles that are covered by this LSC prior to customer delivery or customer loan.

Also, as a reminder, L-Certified policy prohibits the certification of any vehicle with an outstanding Limited Service Campaign, Special Service Campaign or Safety Recall. Thus, no affected units should be sold or

delivered as an L-Certified until this Limited Service Campaign has been completed on that vehicle.

Number and Identification of Covered Vehicles

There are 36 vehicles covered under this LSC.

Remedy Procedures

Please refer to TIS for Technical Instructions.

Conduct all applicable, non-completed Safety Recall and Service Campaigns on the vehicle during the time of appointment.

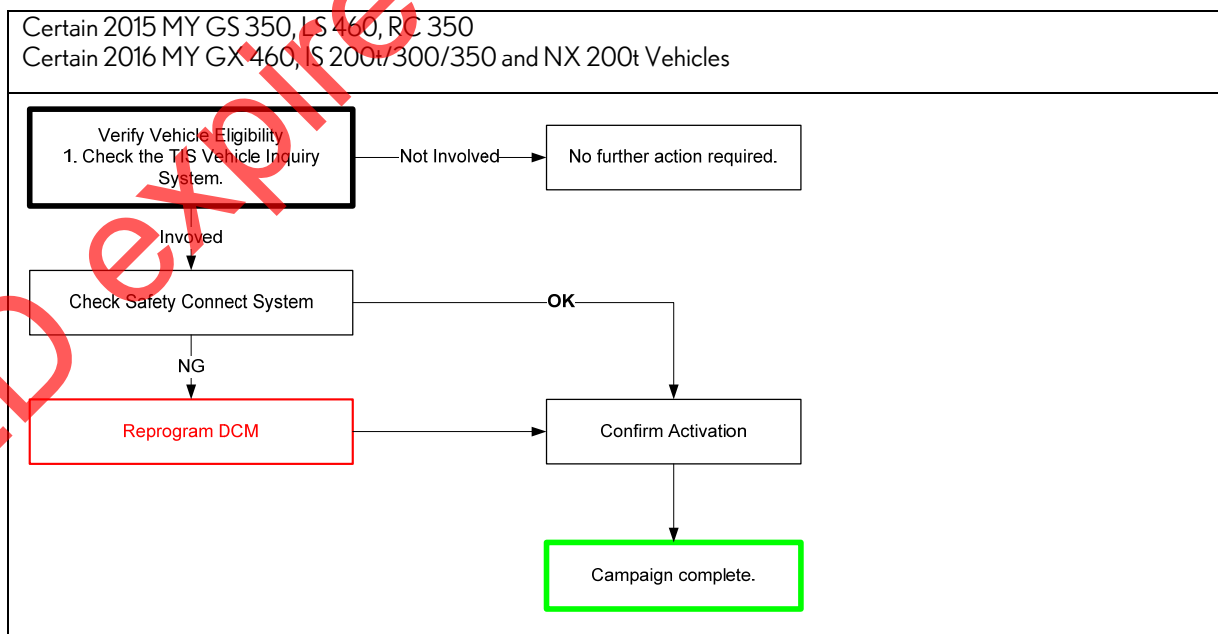

Technician Training Requirements

The repair quality of covered vehicles is extremely important to Lexus. All dealership technicians performing this LSC are required to successfully complete the most current version of the E-Learning course "Safety Recall and Service Campaign Essentials". To ensure that all vehicles have the repair performed correctly; technicians performing this LSC repair are required to currently hold at least one of the following certification levels:

- Senior Technician
- Master Technician
- Diagnostic Specialist

Always check which technicians can perform the repair by logging on to <https://www.uotdealerreports.com>. It is the dealership's responsibility to select technicians with the above certification level or greater to perform this repair. Carefully review your resources, the technician skill level, and ability before assigning technicians to this repair. It is important to consider technician days off and vacation schedules to ensure there are properly trained technicians available to perform this repair at all times.

Warranty Reimbursement Procedure

LSC	Op. Code	Description	Flat Rate
GLD	CGG21A	Reprogram the DCM with valid Mobile Identification Number/Mobile Directory Number	0.3

- The above operation codes include 0.1 hour for administrative cost per unit for the dealership.

Lexus' usual customer care amenities of car wash and fuel fill-up apply to this LSC. Additionally, one day of rental vehicle expense (to a maximum of \$45) or the cost of pick-up and delivery of the customer's car may be claimed if required and subject to the guidelines published in the Safety Recall and Special Service Campaign General Procedures document on TIS.

Repair Quality Confirmation

The repair quality of covered vehicles is extremely important to Lexus. To help ensure that all vehicles have the repair performed correctly, please designate at least one associate (someone other than the individual who performed the repair) to verify the repair quality of every vehicle prior to customer delivery.

Media Contacts

It is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Cindy Knight (310) 468-2170 in Toyota Corporate Communications. (Please do not provide this number to customers.
