Certain 2008-2010 Model Year Highlander Hybrid Vehicles Coverage for Brake Actuator Assembly and Brake Booster Pump Assembly

Model / Years	Production Period	Approximate Total Vehicles
2008-2010 Highlander Hybrid	Early March 2007 – Late July 2010	44,200

In our continuing efforts to ensure the best in customer satisfaction, Toyota is announcing a Customer Support Program to provide coverage for Brake Actuator Assembly and Brake Booster Pump Assembly on certain 2008-2010 model year Highlander Hybrid vehicles.

Background

Toyota has received reports regarding the Brake Actuator Assembly and Brake Booster Pump Assembly on certain 2008 - 2010 model year Highlander Hybrid vehicles. These reports have indicated certain internal malfunctions of the Brake Actuator Assembly.

Although the Brake Actuator Assembly and Brake Booster Pump Assembly are covered by Toyota's New Vehicle Limited Warranty for normal warranty coverage period, 3 years or 36,000 miles (whichever comes first), we at Toyota care about the customers' ownership experience. Toyota is providing coverage for repairs related to the certain internal malfunctions of the brake booster assemblies.

The following information is provided to inform you and your staff of the program notification schedule and your degree of involvement.

Customer Support Program Details

This Customer Support Program provides coverage as it applies to the Brake Actuator Assembly and Brake Booster Pump Assembly. The specific condition covered by this program refers to certain internal malfunctions of the Brake Actuator Assembly. In addition to certain internal malfunctions, specific Diagnostic Trouble Codes (DTCs) C1391, C1252, C1256 or C1253 may be stored in the vehicles memory to be used as verification. If the condition is verified, the vehicle will be repaired with a new Brake Actuator Assembly and Brake Booster Pump Assembly under the terms of this Customer Support Program.

- The **Primary Coverage** offers coverage until December 31, 2020, regardless of mileage.
- After the Primary Coverage, the **Secondary Coverage** is applicable for 10 years or 150,000 miles from the vehicle's date of first use, whichever occurs first.

This coverage is for work performed at an authorized Toyota dealer only. It is subject to the same terms and conditions set forth in the New Vehicle Limited Warranty Section of the Owner's Warranty Information booklet. For example, damage from abuse, an accident, theft and/or vandalism is not covered.

Covered Vehicles

There are approximately 44,200 vehicles covered by this Customer Support Program. There are approximately 160 vehicles involved in this Customer Support Program that were distributed to Puerto Rico.

Owner Letter Mailing Date

Toyota will begin to notify owners in late June 2019 and will be mailed over several months. A sample of the owner notification letter has been included for your reference.

Customer Handling, Parts Ordering, and Remedy Procedures

Customer Contacts

Customers who receive the owner letter may contact your dealership with questions regarding the letter and/or the Customer Support Program. Please welcome them to your dealership and answer any questions that they may have. A Q&A is provided to assure a consistent message is communicated.

Customers with additional questions or concerns are asked to please contact the Toyota Customer Experience Center (1-888-270-9371) - Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

Media Contacts

It is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Tania Saldana (859) 815-9968 in Toyota Corporate Communications. Please do not provide this number to customers. Please provide this contact only to media.

Parts Ordering Process – Non-SET and GST Parts Ordering Process

It is possible that parts for this campaign are either required to be ordered in Campaign Part Order Request (CPOR) on Service Lane, or have been placed on Manual Allocation Control (MAC) due to potential limited part availability. Please check the CPOR/MAC report on Dealer Daily for the most up-to-date parts ordering information.

As this is a Customer Support Program, the condition ***MUST*** be verified by inspecting the vehicle. Therefore, dealers ***SHOULD NOT*** increase their stock of related repair parts. ***Dealers are requested to only order parts for vehicles experiencing this condition only. DO NOT ORDER FOR STOCK.*** As always, if a customer experiences the condition described, dealers should conduct appropriate diagnosis and order the applicable parts.

[Refer to Customer Support Program Bulletin POL19-06 for additional parts ordering information.](#)

All Customer Support Program (CSP) parts are eligible for the Monthly Parts Return Program. Please refer to PANT Bulletin 2011-087 for campaign parts that are currently returnable under the Monthly Parts Return Program and for additional details.

Technician Training Requirements

The repair quality of covered vehicles is extremely important to Toyota. All dealership technicians performing this repair are required to successfully complete the most current version of the E-Learning course "Safety Recall and Service Campaign Essentials". To ensure that all vehicles have the repair performed correctly, technicians performing this repair are required to currently hold at least one of the following certification levels:

- Expert Hybrid
- Master
- Master Diagnostic Technician

Always check which technicians can perform the repair by logging on to <https://www.uotdealerreports.com>. It is the dealership's responsibility to select technicians with the above certification level or greater to perform this repair. Carefully review your resources, the technician skill level, and ability before assigning technicians to this repair. It is important to consider technician days off and vacation schedules to ensure there are properly trained technicians available to perform this repair at all times.

Remedy Procedures

Technical instructions for this Customer Support Program can be found in [T-SB-0064-19](#).

Parts Recovery Procedures

All parts replaced as part of this Customer Support Program must be turned over to the parts department until appropriate disposition is determined. The parts department must retain these parts until notification via the Parts Recovery System (PRS) is received indicating whether to ship or scrap the parts. These parts are utilized by various departments for defect analysis, quality control analysis, product evaluation, as well as other purposes.

To help minimize dealer storage challenges, Toyota recommends that dealers:

- File the campaign claim accurately and promptly. The time a dealer is required to hold parts is based on when the campaign claim is paid by Toyota.
- Monitor the Warranty Parts Recovery Notifications and Part Scrap Report regularly.

Refer to Warranty Policies [9.3 and 9.6](#) for additional details.

Warranty Reimbursement Procedures

Reimbursement Procedure

Refer to the Customer Support Program Bulletin (Bulletin No. [POL19-06](#)) for claim processing instructions. *All parts replaced for this repair are subject to warranty part recovery.*

Claim Filing Accuracy and Correction Requests

It is the dealer's responsibility to file claims correctly for this Customer Support Program. This claim filing information is used by Toyota for various government reporting activities; therefore, claim filing accuracy is crucial. If it has been identified that a claim has been filed using an incorrect Op Code or a claim has been filed for an incorrect VIN, refer to Warranty Procedure Bulletin [PRO17-03](#) to correct the claim.

Customer Reimbursement

Reimbursement consideration instructions will be included in the owner letter.

Thank you for your cooperation.
