

UBCO Service Bulletin

ID	UBC00011
DATE	7 June 2019
MODEL	2018 2x2 Dual Purpose
PRODUCTION	All
GEOGRAPHY	All Markets
TYPE	Notification
TITLE	Default Speed Limit Reduction to 45kmph
ISSUE	<p>The default speed limit of the 2018 UBCO 2x2 will be reducing to 45kmph/28mph. This is due to the entry of the UBCO 2x2 into the European Union - where a maximum speed limit of 45kmph/28mph applies.</p> <p>The new default speed limit will be implemented via firmware version x1.00.330, updated via the UBCO User App.</p> <p>For territories with the higher speed limit of 50kmph/30mph, it is essential that location services are enabled for the UBCO User App prior to installing firmware version x1.00.330. This will allow a speed limit of 50kmph/30mph to be applied to the 2018 UBCO 2x2 within the noted territory.</p> <p>Noted territories with a 50kmph/30mph speed limit are:</p> <ul style="list-style-type: none"> • Australia • New Zealand • United States of America <p>Firmware Release Process</p> <p>Apple iOS Firmware version x1.00.330 will be released in conjunction with an UBCO User App update for Apple iOS. The app update is subject to Apple approval which is expected within the next 2-3 working days. Firmware version x1.00.330 will be automatically available once the app update has been released to the app store.</p> <p>UBCO App users will receive the following warning if location is unable to be determined by the UBCO App when selecting to install firmware version x1.00.330.</p> <p><i>We've been unable to determine your location. By proceeding with this firmware update, maximum speed will default to 45kph/28mph. To ensure correct maximum speed for your location, ensure location services are enabled for the UBCO user app</i></p> <p>Android OS Firmware version x1.00.330 will be available via Android in 2-3 weeks</p>
ACTION REQUIRED	Enable location services for the UBCO User App. Install firmware version x1.00.330 to all 2018 UBCO 2x2s
