

NEW REPLACEMENT FUEL TANK INTERNAL FUEL LINE CONNECTION

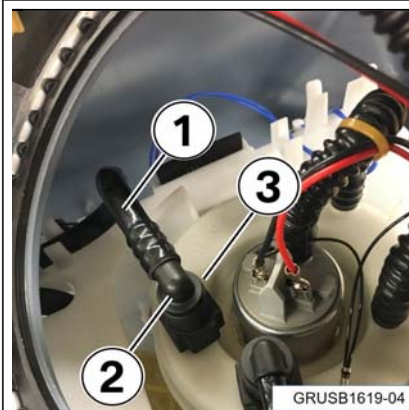

MODEL

F06 (Gran Coupe)	F07 (5 Series Gran Turismo)	F10 (5 Series Sedan)	F12 (6 Series Convertible)
F13 (6 Series Coupe)			

INFORMATION

When replacing a fuel tank for any reason, the new replacement tank should be checked for the following detail prior to installation. It is possible that the suction jet supply line (1) quick disconnect (2) inside the new fuel tank does not align properly with the fuel pump connection (3). If this detail is not checked, the engine will not start.

Do not reroute the suction jet supply line to make the connection.

- Hold the suction jet supply line (1) with one hand
- Rotate the quick disconnect elbow (2) with your other hand to align the connections
- Connect the supply line to fuel pump (3)
- Inspect the supply line (1) for kinks before continuing
