PAB1086: BATTERY RECYCLING PROGRAM UPDATE

Purpose for Parts and Accessories Bulletin

To notify dealers participating in the HDMC (Harley-Davidson Motor Company) Battery Recycling Program that the pick-up process for core batteries is changing.

Effective August 1, 2019, the pick-up of core batteries will require a HDMC request number before or at the time of pick-up. This change will promote efficiency in processing the core batteries.

Markets Affected

DOM market only.

Summary

If not currently recycling batteries through Harley-Davidson, consider starting the program now! The program to schedule pick-ups is on H-Dnet.com. Dealers can start using this program at any time. Dealers currently using this program are enjoying important benefits, such as:

- Extra revenue
- Satisfaction that the used batteries are disposed of properly.
