

Technical Service Bulletin

94 Crack-like marks in upper headlight lens

94 19 11 2055803/1 August 5, 2019.

Model(s)	Year	VIN Range	Vehicle-Specific Equipment
A6	2019 - 2020	All	Not Applicable

Condition

Customer states:

There are scratch/crack-like marks on the inside of the lens in the upper area of the headlight. This could affect both left and right headlights.

Technical Background

This perceived defect is design-related and caused by the casting molds for the lens.

Production Solution

Not applicable.

Technical Service Bulletin

Service

Figure 1 and 2 show the slide separation marks of the casting mold on the transparent part of the lens.

Figure 1. Location of slide separation casting mark.

Technical Service Bulletin

The separation marks on the transparent part of the lens are needed for removal of the mold.

Figure 2. Close up of the separation mark.

The headlight beam is not affected, as the separation mark is not on the light emission surface of the lens.

Note:

Parts replacement does not solve this issue. Claims for replaced parts will be subject to review.

Warranty

This TSB is informational only and not applicable to any Audi Warranty.
