

CIRCULAR LETTER MAS001962

From: Technical Service Operations

To: Maserati Subsidiaries, Dealers, Importers

Modena, 01/08/2019

Models: Ghibli, Quattroporte, Levante equipped with V6 Petrol Engine

Subject: Oil Filter Cartridge Removal/Refitting Procedure Update

Dear Sirs,

Hereby we inform you that the Oil Filter Cartridge Removal/Refitting Procedure has been updated.

The update consists of a necessary engine oil drainage operation, to be performed strictly before the removal of the filter cartridge.

This update is needed to prevent that a small amount of residual oil will be reintroduced into the engine through the Main Gallery.

The new procedures are available in the TechDoc Workshop Manual at the sections below:

M156 Quattroporte: 00.20.003 53

M157 Ghibli: 00.20.003 53

M161 Levante: 01.61.010 00

Please perform the new procedures with immediate effect

We remind you that our ABMs are available for any questions or support, and we kindly ask your full cooperation in complying with the above mentioned indications.

Thank you for your attention.

Best regards.

Technical Service Operations

Gionathan Lunetta
