

# Service Bulletin

Bulletin No.: 19-NA-137

Date: July, 2019

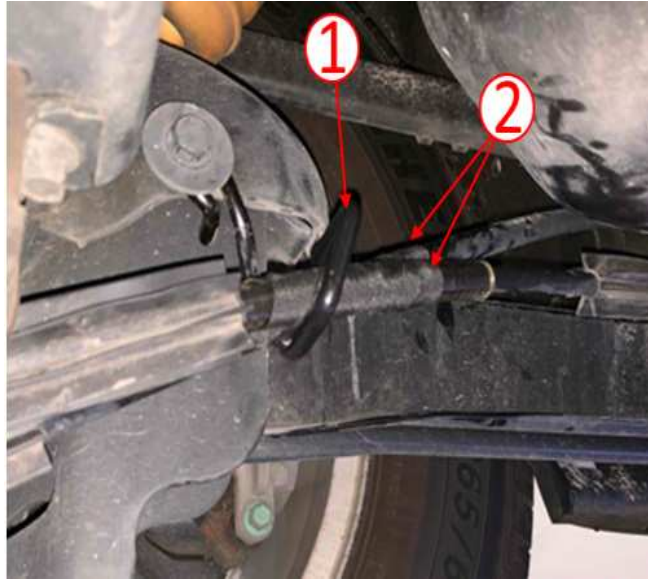

## TECHNICAL

**Subject: Squeak Noise From the Vehicle Underbody**

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Cadillac	Escalade	2015	2019				
Chevrolet	Suburban						
	Tahoe						
GMC	Yukon						

<b>Involved Region or Country</b>	North America, Russia, Europe, Middle East, Israel, South America, Japan, South Korea and Thailand.
<b>Condition</b>	Some customers may comment that a squeak noise can be heard from under the vehicle while driving at slow speeds.
<b>Cause</b>	This condition may be caused by the parking brake cables rubbing against each other or alongside the body.

**Note:** Ensure that the tape extends at least 25 mm (1 in) above and below the rubbing point at the parking cable bracket or the body.

5360283

Using Woven Polyester Electrical Tape (PET), locate both of the brake cables near the parking brake cable bracket (1) and apply tape (2) to the cables ensuring that the tape is applied in a double layer extending along the cable as shown above.

**Correction**

5377922

Follow the brake cables along-side the body and examine for contact to the body.

⇒ If contact to body has been found, apply the Woven Polyester Electrical Tape (PET) to the cable ensuring that the tape is applied in a double layer extending along the cable.

## Parts Information

Causal Part	Description	Part Number	Qty
N/A	Woven Polyester (PET) Electrical Tape**	1985620* (Wurth 894.1230* in Canada)	1
<p>*There is enough material to service multiple vehicles.
