Reason for this Service Bulletin

DB11 AMR and DBS Superleggera use a new sound control system that supplies more engine noise to the cabin. Some parts of this system are not compatible with the parts installed in DB11 V12 vehicles (up to chassis number L05950). This Service Bulletin gives information to make sure the correct part is installed to the correct vehicle and engine combination.

Refer to the Parts Data that follows:

- If it is necessary to replace part, or all, of the sound control system.
- If it is necessary to replace the engine.
