“Right first time in Time”

Volvo’s Windshield Replacement Program is a great example of technological innovation at Volvo Cars. The proprietary cold-set POWERCURE Windshield Adhesive, when used with approved POWERCURE Dispenser, ensures a new windshield will have precise and reliable seals in just 90 minutes with only one adhesive. You’ll get customers on their way quicker while opening space at your facility faster.

Over the past two years, Volvo has seen growth in windshield replacement of over 28%. Plus, market data shows that the windshield business generates substantial gross profit with minimal investment and strong return - while also enhancing customer safety.

POWERCURE Dispenser and Windshield Adhesive will be in stock and ready to order through Volvo’s Parts Ordering System. Adhesives and dispenser are nonreturnable items.

Products:

POWERCURE Dispenser (PN 32244623)

POWERCURE Windshield Adhesive (400ML): 1 adhesive, 1 activator, 1 nozzle (PN 32244501) Glass Replacement kit 732-VK805 (Shop Equipment)
