RE: Identification of the correct tires to install on the Urus.

Information for the field

With regard to the possibility of installing different types of tires for the Urus model, this is to inform Lamborghini network dealers that they should refer to the attached tables containing the applicability lists.

An example of the tire tread pattern is shown in the tables to make recognizing the tire easier, based on the type.

We also remind you that using tires of versions and types not included in the table for a particular car model, or not in line with what is specified in it, is not permitted.

Note

Before purchasing new tires, Automobili Lamborghini S.p.A. recommends that you check that the marking “L” is present, as in the following example.
