

DAIMLER TRUCKS NORTH AMERICA AFTERMARKET

No.: 19 TL-15
September 16, 2019

TO: Service Locations

FROM: Aftermarket Service Diagnostics & Tools

SUBJECT: **ICC5 Programming Cable**

GENERAL INFORMATION

To assist with programming of the new ICC5 hardware, the Special Tools Group has developed a special programming cable. Due to the large files required to program the ICC5, the Special Tools Team has developed a cable that allows for higher programming rates which should reduce the time to program the ICC5.

REQUIRED ACTION

The tool will be automatically shipped to dealers. Additional cables can be purchased from the PDC.

PART NUMBER

DDE DSNCHA018003
