Subject: Meritor Disc Brake Caliper Mounting Bolts

Dear [REDACTED]

Our records indicate that [REDACTED] is the owner of certain vehicles, and DTNA has decided to share the following documentation with you.

This documentation applies to Freightliner M2 trucks for model years 2019 and 2020. We hope you find this information helpful.

Sent Via "email"

DTNA will inspect an initial population of trucks included in the attached excel file to ensure calipers are installed correctly by checking for inspection markings on the caliper mounting bolts. Any vehicles with missing caliper mounting bolt inspection markings will be checked for proper caliper mounting bolt torque, and repaired if found loose and or missing.

Please contact me if you have any questions.

Thanks
