# WKD0 Workshop campaign - Re-programming gateway control unit

Update 4/15/19

The TI and VIN list are now attached to this post. Repairs can now begin on all affected vehicles.

English (GB)

WKD0 Workshop campaign - Re-programming gateway control unit

Overview

There is a possibility that the gateway control unit will not be initialised fully when the ignition is switched on in the affected vehicles.

As a result, no vehicle functions are available and the vehicle will not start.

Within the market area for which you are responsible, please arrange for this measure to be carried out on the affected vehicles during the next workshop visit.

Model type	Cayenne (9YA)
Model year	from 2019 to 2020
Manufacturing period	between 10.31.2018 and 03.21.2019
Number	8,234

Porsche Mobility

If requested, the mobility of the affected customer can be guaranteed by offering a suitable replacement vehicle.

Please invoice this additional service with the campaign scope via WWS.

Further Information

If you have any questions please email Mitchell.grasser@porsche.us
