WKJ0 Workshop campaign - Re-programming control unit for air-conditioning system

Overview

Due to incorrect servo motor control, the air-conditioning system flaps on the affected vehicles may not be moved to the required positions at times.

If this happens, the temperature distribution and air distribution in the interior of the vehicle can differ from the selected settings.

To prevent this from happening, the air-conditioning control unit must be re-programmed with an updated data record.

Please arrange for this measure to be carried out the next time the affected vehicles come into the workshop.

Model type	Panamera (971)
Model year	2017 to 2020
Manufacturing period	between 03/21/2016 and 09/05/2019
Number	19,670

Warranty processing

Please enter the campaign that was carried out in the Warranty and Maintenance booklet for the vehicle.

Scope 1:

Damage code	WKJ0 66 000 1
Working time	32 TU

Further information

Work instruction	TI No. 118/19, Group 8, Service, WKJ0
Vehicle list and allocation	See Attached VIN list or PCSS
