	Battery (Amp. Req. Vary)	000 915 105 *	1

Revised 10/28/2019

*VIN Required

2017 e-Golf Service Reminder Reset

Resetting the service reminder display

If the service was not performed by a Volkswagen workshop, the display can be reset as follows:

- Switch off the ignition.
- Press and hold the **0.0** button in the instrument cluster.
- Restart the ignition.
- Release the **0.0** button when the following text appears on the instrument cluster display:

Reset inspection service?

Do **not** reset the service reminder between service intervals; otherwise incorrect information will be displayed.

The message will disappear after a few seconds when the electric drive is activated, or when the **OK/RESET** button on the wiper lever or the **OK** button on the multi-function steering wheel is pressed.

For current fluid capacity charts, please refer to the Maintenance section in Elsa.
