## TECHNICAL OPERATIONS

SUBJECT:

## TELLURIDE MAXIMUM TOWING TONGUE WEIGHT UPDATE

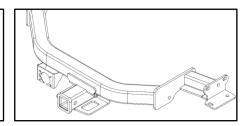

Kia Motors America (KMA) has identified a typographical error on page 5-148 of the 2020MY Telluride Owner's Manual regarding maximum tongue weight capacity. The manual incorrectly identifies that the maximum tongue weight capacity is 351 lbs. However, the correct tongue weight capacity is 500 lbs.

<u>Telluride owners and Kia dealers with Telluride vehicles will be notified of this error in the near future and will be provided with materials to update existing Telluride Owner's Manuals.</u>

In addition, some owners have inquired regarding the need to upgrade the standard four (4) pin connector to a seven (7) pin connector to support their towing needs. While Kia does not provide an adapter, there are several aftermarket options available. Owners should consult a trailering professional, as well as local towing laws, to ensure proper equipment and installation prior to towing.

Owners with questions are encouraged to contact their local authorized Kia dealer or Kia Consumer Assistance at (800) 333-4KIA (4542).

ltem		lbs. (kg)	
		Lambda II 3.8 GDI ATK	
Maximum trailer weight	Without brake system	1,650 (750)	
	With brake system	5,000 (2,267)	
Maximum tongue weight		500 (227)	

As a reminder, follow all towing instructions, notices and cautions as found in the vehicle owner's manual.
