#### Supersession Statement

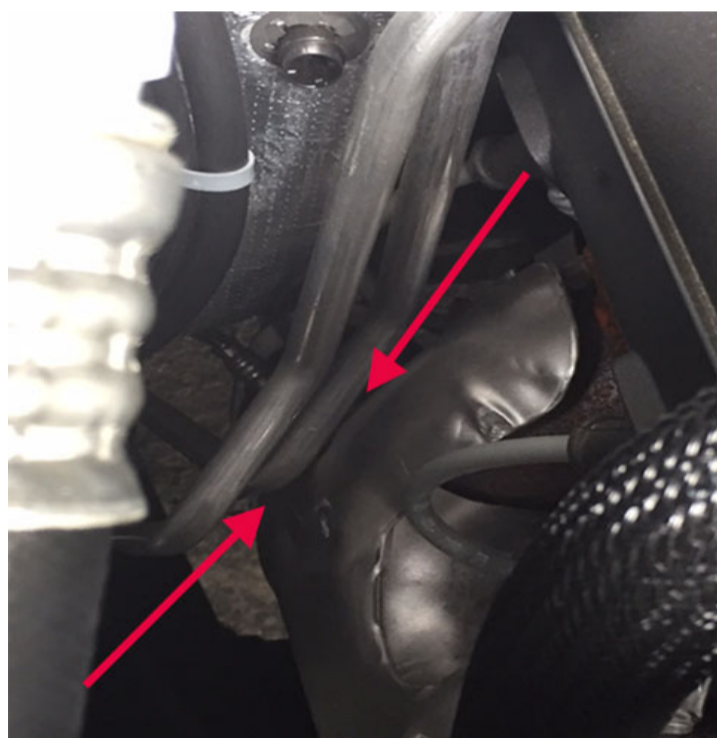

This PI was superseded to add 2018, 2019, and 2020 Model Years. Please discard PIT5447B.

#### Condition / Concern

**Some customers may comment that they hear a rattle or buzz noise from the dash or front of the vehicle. It may be most noticeable with engine RPM or when turning left or right.**

#### Recommendations / Instructions

**Inspect for the rear heater pipes contacting the passenger side exhaust manifold. If the rear heater pipe is found to be contacting the exhaust manifold (as shown below), reposition the heater pipe so it no longer makes contact.**

#### Warranty Information

For vehicles repaired under the Bumper-to-Bumper coverage (Canada Base Warranty coverage), use the following labor operation. Reference the Applicable Warranties section of Investigate Vehicle History (IVH) for coverage information.

Labor Operation	Description	Labor Time
4480348 *	Reposition The Rear Heater Pipe	0.4 hr.
* This is a unique labor operation for bulletin use only.		

Please follow this diagnostic or repair process thoroughly and complete each step. If the condition exhibited is resolved without completing every step, the remaining steps do not need to be performed.
