

**** SOLUTION ****

Title	Volvo Chassis - SNV 15-016 Documented Process For Engine Oil Consumption - All Emissions, All Model Years
-------	---

Volvo Models

Volvo Model	VN , VNL , VNM , VNR , VNX , VAH , VHD , VT
-------------	---

Emission Standard

Emission Standard	US04 , US07 , US10 , US10+OBD13 , US14+OBD13 , US14+OBD15 , US14+OBD16 , US17+OBD16 , US17+OBD18 , US17+OBD19
-------------------	---

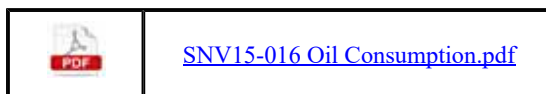

Engine family

Engine family	11L Engine , 13L Engine , 16L Engine
---------------	--------------------------------------

**** SOLUTION ****

Cause	Procedure for addressing reports of oil consumption.
-------	--

Solution	Refer to SNV15-016 below for instructions and requirements for reports of Excessive Engine Oil Consumption:
----------	---

A copy of the Oil Consumption Log can be found below:

Solution visibility	Dealer distribution
---------------------	---------------------

Function(s)/component(s) affected

Function affected	Engine , engine lubrication
-------------------	-----------------------------

Function Group

Function Group	22 lubricating and oil system
----------------	-------------------------------

Customer effect

Main customer effect	fluid , smoke , diagnostics/methodology , efficiency/abnormal behavior
----------------------	--

Fluid problem	consumption
---------------	-------------

Fluid implicated	Oil
------------------	-----

Administration
