Work Instructions

Subject: ParkSmart Refrigerant Compressor Noise

**Models Affected: Freightliner New Cascadia vehicles, model years
2017, 2018, and 2019**

1. Park the vehicle on a level surface, shut down the engine, and apply the parking brakes. Chock the tires.
2. Connect the vehicle to DiagnosticLink and upload the newest version of the ParkSmart controller software. Refer to **Service Bulletin 54-308**, *Chassis ECU Programming* for instructions on uploading software to a specific vehicle ECU.
3. Verify proper operation of the ParkSmart unit.
