Revised 11-11-2019

Resetting the service reminder display

If the service was not performed by an authorized Volkswagen dealer or an authorized Volkswagen Service Facility, the service reminder can be reset as follows:

Switch off the ignition.

Push **0.0 / SET** and hold down.

Switch on the ignition.

Release the **0.0 / SET** button and push the  button within about 20 seconds.

 Do **not** reset the service reminder between service intervals; otherwise, incorrect information will be displayed.

 The service reminder disappears after a few seconds when the engine is running or the **OK** button has been pushed.
